The Last Wild Part 2 - Worksheet

- 1) When Kester reaches the circle the pigeons inform him that fish have become extinct.

But there are no fish left. Not in this lake, not anywhere

Based on your understanding of ecosystems, which animals would be affected most by fish becoming extinct? How might those animals be forced to adapt?

- 2) What is the "last wild" ?

3) Why don't the wolves trust Kester?

4) Why would the wolves have an advantage in the inner circle? Why do they want to preserve the natural order so badly?

5) Why do you think the wolf-cub followed Kester?
